The war so far has cost Russia $674,000 a day. It looks like her prestige in China will be added to the cost.

A man named Morgan Thrailkill is on trial in Saluda county, South Carolina, for killing a man named Ben Burton. Thrailkill! What's in a name?

The Washington *Post* remarks: "Owing to ex-Gov. Hogg's disgruntlement it is feared that the Democratic majority in Texas will not exceed 300,000." The Texans don't propose to be Hoggish about the matter at all.

The formal distribution of campaign fund has been commenced by the Republican committees. Just as we expected they are sending out hundreds of thousands of William J. Bryan's speeches derogatory to Judge Parker.

National Chairman Taggart has drafted Senator Tillman for Democratic spellbinding in Maine and Vermont. We fail to see the appropriateness of this selection unless the South Carolinian desires to make a new record in discarding his pitchfork.

Tom Watson, Populist nominee for President, said in his acceptance speech on Thursday: "I give Theodore Roosevelt credit for having a splendid courage of conviction." We cannot stand with you as to that, Watson. We are committed to the Atlanta *Journal* that Roosevelt has the audacity of his predilections.

The Atlantic City authorities are now bent on the breaking up of kissing and spooning on the beach. Pretty girls and their beaux, arrayed in bathing suits, are being hauled up before the mayor every few days. It is hard that lovers can't have the privilege of "raising sand" where there is so much of it going to waist. The law, however, is really intended to prevent the boys from going to waist.

Says the Columbia *Record*: "One of the best evidences that Columbia is to continue along the line of progress is that navigation on the Congaree is to be resumed. The re-establishment of the line will mean much towards the development of the wholesale trade of the city as well as otherwise." Great possibilities are in store for Columbia in her steamboat line. Wilmington is in a position to say from practical experience that the merchants of Columbia will ultimately realize what a steamer line will do for their city.

— Insurance Commissioner James R. Young, of Raleigh, has caused the arrest of a Holiness preacher, "Rev." T. B. Gobel, of Spray, who has been representing and soliciting business for the National Relief Association of Williamsport, Pa. The concern is doing a life and accident business. LOCAL DOTS.

— The Delgado Band will play at Carolina Beach this afternoon.

— The Mayor had only one offender in his court yesterday—a soldier, who was fined $5 and costs for being drunk and down in Burr & Bailey's alley.

— The Cape Fear fisheries at Old Brunswick have begun operations for the Fall season. The steamer "Hudson" is making some very good hauls of menhaden.

— Messrs. Lowry & Faulkner completed the public well yesterday by fitting on a first-class pump. With little exercise at the pump-handle a copious supply of fresh water is obtainable.

— A delightful german will be given by a number of Wilmington young people at the Seashore Hotel Monday night. A special car will be run from the city at 7 o'clock for the benefit of those who desire to attend.

—The little two-year-old son of Mr. and Mrs. W. B. Ballinger, No. 503 Campbell street, died yesterday morning at 10 o'clock. The remains were sent last night for interment to the former home of the parents in Goldsboro.

— The occupants of Burr & Bailey's alley stood not upon the order of their going after the ultimatum from the police department Friday and in consequence not a soul was in sight when the officers went through the precinct last night to see that the order had been obeyed.

— Cumberland county's Democratic convention is called to meet Sept. 28th, the precinct primaries to be held Sept. 23d at 10 A. M. By a vote of 13 to 6 the Executive Committee rejected the holding of a primary for county officers as now provided for in the State organization.

HONOR OF POPULAR GUESTS.

Messrs. Reaves and King Entertained a Party of Friends Last Evening.

At the hospitable home of Mr. and Mrs. W. J. Reaves, No. 514 South Second street, last night, Messrs. R. M. Reaves and B. F. King, Jr., delightfully entertained a number of their friends in honor of Misses McIntosh and Raney, two of the popular young ladies along with the class of orphans from the Odd Fellows' Home at Goldsboro. Music and refreshments, games and other diversions of an entertaining nature were enjoyed by the young folks until near the midnight hour.

Among those in the party were Misses Lottie Dudley, Ruth Dudley Lizzie Jacobs, Lena King, Nellie Kennedy, Nellie Reaves, Annie and Mary Ella Smith, Annie Price, Addie Anderson, Pauline Cannady, Annie Bremer, Pearle Barnes, Mary Bell, Lillian Williams, Katie Fleet, Camille Fleet and Hattie Gardner, all of Wilmington, and Misses Carrie Dulin and Louise McIntosh, of Goldsboro; Messrs. Wallace and Louie Sellers, Claude Lewis, Leroy LeGwin, Harry Allen, Jesse Cannady, Herman Davis and Henry Orrell.

HOT SHOTS FROM SIMMONS.

Speaks Out in Meetin' to Rollins About Joint Canvass—Advisers.

[*Special Star Telegram.*]

RALEIGH, N. C., Aug. 20.—Chairman F. M. Simmons, of the State Democratic Executive Committee, issues an open letter to Chairman Rollins, of the State Republican Committee, to the effect that there does not seem to be any occasion for further communication between them with reference to a joint canvass. He says among other sharp things:

"In view of the fact that your party had its State convention first and your platform makes divers charges against the administration of the State's affairs during the last four years by the Democratic party, it is surprising that the candidates nominated by your party for executive and administrative positions in the State government should oppose a joint discussion before the people, of these charges, and that you should propose to limit the joint discussion to opposing candidates on the ticket whose sole duty will be to preside over the Senate."

Mr. Simmons advises Mr. Rollins that they as State chairmen have nothing to do with any arrangements that the district committees may make for joint debates between Congressional candidates. He tells Rollins that he assumes that the Republican State candidates would surely obey their State committee just as the Democratic State candidates certainly would in the matter of a joint canvass, and, therefore he must accept Rollins' refusal of his challenge as an acquiescence by Rollins in the opposition of Republican candidates on the State ticket to a joint discussion.

State Chairman Simmons announces the following advisory committee for the campaign: Lee S. Overman, Salisbury; Locke Craig, Asheville; L. Banks Holt, Graham; Capt. W. I. Everitt, Rockingham; Col. P. M. Pearsall, Raleigh.

SEPARATE THE RACES

Chairman of Ordinance Committee Will Confer With Street Car Officials.

MANY VIEWS EXPRESSED.

Plan Which Works Satisfactorily in Virginia, Maryland and Many Southern Cities Will be Recommended. A Washingtonian's View.

Upon the return of Mr. A. B. Skelding, general manager of the Consolidated Railways, Light and Power Co., from Washington, Alderman W. P. Gafford, chairman of the Ordinance Committee of the city council, will call upon him to-morrow and present officially the request of the Board of Aldermen for a separation of the races on the street cars, both city and suburban. It is known that the officers of the Consolidated Company are favorable to the proposition, believing that it will work to the mutual advantage of all classes of their patrons, both white and colored, but they are not quite sure that the present charter contains the necessary machinery for putting the new rule in effect. Those matters will be generally discussed with the general manager by Alderman Gafford to-morrow, and if there is anything, within proper bounds, that the city council can do to assist in the inauguration of the new departure, the street car officials will receive the assurance that it will be done.

The matter was first brought to the attention of the Board of Aldermen by Capt. A. L. DeRosset, who appeared at the last regular meeting at the solicitation of a number of ladies who made grievous complaint at the wholesale and indiscriminate jamming of both colored and white persons together in the cars, especially on Saturdays when many of the blacks are dirty, boisterous and reeking with foul odors peculiar to the uncleanly of their race. The suggestion was at once accepted by the Board and the plan adopted in many Southern cities of requiring the whites to fill the cars from the front and the negroes to fill them from the rear end as they enter, was immediately recommended to the street car officials. The matter was left with Alderman Gafford for conference with the car people and a conference with General Manager Skelding would have been held last week but for the enforced absence of the last named. Immediately upon the recommendation of the Board and the appointment of Mr. Gafford for the conference, Mr. Skelding addressed a letter to Mr. Gafford saying he would be very glad to have him call and confer upon the subject.

The plan suggested for adoption here is working successfully in nearly all Virginia and Maryland cities and an effort is now being made to introduce it in Washington City. An attorney writing to the Washington *Post* takes this view of the matter, in reply to officials of the Traction Company there, who say they have no power to enforce the regulation:

"The same statute which authorizes the placing of men smelling of cigar-smoke on the rear seats of cars authorizes the placing of a race reeking with other smells where the white race will not be the victim of a nuisance. The whites of this country own its boats, cars, etc.; and nothing in the world prevents them from using their property in such a way that white women shall be secure from such assaults as was reported in the newspapers the other day, of a negress rudely crowding into a filled street car and setting down on a white woman's lap. This, to show the 'rights of colored people.'"

Dr. Bellamy's Condition.

A telegram late yesterday afternoon from Dr. W. J. H. Bellamy stated that the condition of Dr. Russell Bellamy in New York was about the same. He is suffering from concussion of the brain as the result of the accident on the polo grounds at Cortland Park Thursday afternoon and has only partially gained consciousness. When aroused, the young physician responds only in monosyllables, the telegram yesterday said, but the physicians have great hopes of his recovery. Mr. "Jack" Bellamy, a brother of the injured man, is now living in New York and is with his father and mother at the bedside of Dr. Bellamy. Mrs. Bellamy was spending the Summer in the mountains of Pennsylvania when news of the accident reached her and she hastened to New York to be with her son.

Real Estate Transfers.

From deeds filed for record yesterday the following real estate transfers appear: Charles L. Dickinson to John M. Walker, for $500, property on south side of Princess, 30 feet west of Twelfth street, 30x150 feet in size. John H. Hanby to Sallie F. McIntire, for $1,000, property at southwest corner of Ninth and Dock streets, 36½ by 99 feet in size. Van J. Millis and wife to John W. Capps, for $1 and other considerations, property on south side of Wooster, 65 feet South of Ninth street, 75x230 feet in size.

Reunion of Old Veterans.

Mr. H. E. Newbury, of Magnolia, secretary of Company B, First Battalion Heavy Artillery, writes that the command will have its annual reunion this year at Burgaw on Sept. 22nd. JUVENILE BASEBALL LEAGUE.

Railroad Juniors Reach Top of Percentage Column—Three Games Yesterday on the Local Diamond.

	Won.	Lost.	Per Cent.
A. C. L. Jr's	8	7	.533
M. S. G.	9	8	.529
S. S. R.	8	9	.470
Financiers	7	8	.466

Only three games were played yesterday by teams of the Juvenile City Baseball League—the Market Street Giants, with R. Green in the box, having won two in a walk from the Seventh Street Rattlers, and the A. C. L. Juniors having easily won the third game from the Financiers, forging itself from the bottom of the percentage column at the opening of the League series to the very top at the finish. Owing to wet grounds and intermittent showers during the afternoon none of the games was of the standard the teams are capable of playing under ordinary conditions. The Giants and Rattlers tried conclusions at Seaside Park and the score was 6 to 1 and 9 to 1 in favor of the Giants. The score between the Railroaders and Bankers was 17 to 8 with no feature.

The battery work of the Giants featured the game with the Rattlers, Green having allowed but two of the Seventh Streeters to reach home in sixteen innings. The teams lined up as follows:

M. S. G.		S. S. R.
Moore	c	Bulluck
Green, R.	p	Sallings
Thees	1b	Lester
Gerken	2b	Taylor, T.
Hewlett	ss	Duffy
Seifert	3b	Kendall
Lacy, L.	lf	Newkirk
Richards	cf	Taylor, P.
Lacy, W.	rf	Green

As before stated, the game between the Railroaders and Financiers was featureless, but at the close of the season the line-up of the teams will be interesting as follows:

A. C. L. JRS.		FINANCIERS.
Woodberry	c	Gore, W.
Schulken	p	Brittain
Terry	1b	Hines
Houston	2b	Sinclair
Merritt	3b	Gore

"LAURA KATE" THE WINNER.

Third and Last of Series of Skiff Races at Wrightsville Beach Yesterday.

In the third and last of the series of dead-rise skiff races at Wrightsville Beach yesterday afternoon, the "Laura Kate," Capt. Burriss, won her second triumph, taking the handsome silver loving cup offered by the Consolidated Company. There were six entries for the race and great interest was manifested. Capt. C. D. Maffitt was in charge and makes up the official record as follows:

"Gull," Capt. Stevenson; start, 4:30:30; finish, 6:14:35.

"We-E-Pa," Capt. Schulken; start, 4:30:30; finish, 6:15:30.

"Dorothy Dodd," Capt. Stokley; start, 4:30:15; finish, 6:13:20.

"Laura Kate," Capt. Burriss; start, 4:30; finish, 6:07.

"Little Joe," Capt. Jacobi; start, 4:31; finish, 6:24:30.

"Louisa," Capt. Bokenhagen; start, 4:31; finish, 6:12:15.

The "Little Joe" fouled a buoy during the race and would have been debarred from winning had she finished ahead. The "Gull" capsized soon after finishing, but aside from the loss of a pair of eye-glasses by a member of the crew there was no damage.

REV. C. B. PAUL DEAD.

Former Pastor of a Wilmington Church Passed Away in Carteret County.

Hundreds of friends of the Rev. C. B. Paul, formerly pastor of South Side Baptist church in this city, will regret to learn of his death, which occurred Thursday of last week at the home of his father at Davis, Carteret county, N. C. Mr. Paul had spent the session before this Summer in the Baptist Theological Seminary at Louisville, Ky., better fitting himself for the ministry, and while conducting revival services in Eastern Carolina during June and July he contracted typhoid fever, which caused his death after five weeks' illness.

Rev. Mr. Paul was pastor here nearly two years, and was highly esteemed by all who knew him. He leaves a wife and an infant daughter

In Business For Himself.

Mr. Carl D. Owen, of Marion, S. C., who for four years has been a conscientious and ever reliable member of the STAR'S composing room force in this city and an all-round printer of rare talent, leaves this morning for Marion to engage in business for himself. He has purchased a first class plant and will open an up-to date job printing establishment in his home town. Three Vessels Arrive.

Three others of the Wilmington bound fleet of vessels detained north of Hatteras by the strong head current arrived yesterday. They are all from New York as follows: Schooners "Lejock," 297 tons; "Chas. H. Valentine," 535 tons, and Eliza A. Scribner," 250 tons. The three brought cargoes for the S. A. L. warehouses. British steamer "Belfast" having completed discharging part cargo of kainit here cleared yesterday, light, for Savannah, Ga.

CARNIVAL'S COMING.

Jr. O. U. A. M. Committee Yesterday Signed Contract With Seeman-Millican Co.

SEPTEMBER 12TH-19TH DATES.

Attractions Guaranteed Strictly Moral and First Class in Every Particular. Fakirs and "Followers" Not Permitted With Shows.

September 12th-19th, inclusive, are the dates decided upon by the Junior Order of United American Mechanics for its street fair and carnival here this fall, a contract for those dates having been closed by the committee yesterday with Dr. Horace Grant, general manager of the Seeman-Millican Mardri-Gras Company, which is said to be one of the best organizations of its kind on the road. The Evans lot, on Third, between Harnett and Swann streets, within one block of the street car line, has been chosen as the scene for the week of merry-making. The contract was signed by Walter E. Yopp, John E. Wood and A. J. Hewlett, representing the "Juniors," and Manager Grant left in the evening for the south where he hopes to arrange other dates.

The Seeman-Millican Company carries twelve shows, including an elaborate Crystal Maze, Ferris wheel and tented enterprises, which are guaranteed to be strictly moral and first-class in every respect. A concession has just been granted the company for an exhibition in Washington, D. C., this week, and some of the other large towns in which the line of attractions has been successfully put on are Birmingham, Ala., Albany and Augusta, Ga., Lynchburg, Va., Cumberland, Md., Harrisburg, Pa., and Nashville, Tenn.

The carnival this season will be well out of town and there will be no blocking of the streets or interference with traffic as was the case at the former carnivals. The proceeds are to be used by the Jr. O.U. A. M., in purchasing Bibles and flags and presenting them, according to the Order's beautiful custom, to the public schools of the county. The manager promises an absence of fakirs and says everything will be wholesome and clean.

TEACHERS' INSTITUTE IN COLUMBUS.

Great Success Scored by Prof. Foust and Assistant—Improve Schools.

[*Special Star Correspondence.*]

WHITEVILLE, N. C., Aug. 19.—The Teachers' Institute of Columbus county closed to-day. It has been in session in Whiteville for two weeks. Lasting good has been done for the children of the county. The teachers will go to their work this Fall better equipped and fuller of zeal for their worthy calling.

The institute has been conducted by Prof. T. R. Foust, superintendent of the graded schools of Goldsboro, assisted by Miss Etta Spier, who has been engaged in primary work in the same schools. As for Professor Foust, he was known to Columbus county from his institute work of last Summer. The teachers received such help from him then, and were so entertained by his methods of presenting and solving the various problems of school teaching, that they petitioned for his return this year. He has a way of going to the heart of his subject, whatever it may be, that makes even arithmetic interesting.

Miss Spier came as an entire stranger, but the county may well be congratulated on securing her aid. Her part of the institute work was along the line of phonetics, nature study and primary number work, in which she has proved herself a teacher of rare gifts and well adapted to institute work. Her work on nature study has been of very special interest, showing it to be of most fascinating and at the same time important branch of study for children, and one which every teacher should find pleasure in teaching.

On Tuesday afternoon the Ladies' Society for the Betterment of Schools and School Houses met with the Institute. Mrs. J. A. Brown, of Chadbourn, district vice president, was present, and by request presided over the meeting. Reports from the various members showed that work had been done in many districts in the improvement of school houses and grounds. Mrs. Lee Powell, of Whiteville, was elected county president, and Mrs. W. H. Speight vice president for the ensuing year. Mrs. Brown came with the proposition that instead of requiring the county president to travel over the entire county, the constitution should be so amended as to give each township a vice president, whose duty it should be to organize the various districts in her own township. This was adopted unanimously and the vice presidents were appointed for all the townships. With this new organization and with speeches which were made by Hon. Joseph A. Brown and others, the movement was given a new impetus, and it is expected that very efficient work will be done during the following year.

Rev. C. Dillard, colored, Goldsboro, conducted the colored institute. He gave the best of satisfaction. He is a remarkable man for one of his race and he is held in high esteem by all who came in contact with him while here. The colored teachers were enthusiastic over him; they have drawn up resolutions asking that he be returned next year. H. P. HEVENOR.

Funeral Yesterday Afternoon.

The funeral of the late Mrs. Harry Hill was conducted at 4 o'clock yesterday from the family residence, Fourth and Princess streets, the Rev. A. McCullen, pastor of Fifth Street Methodist church, officiating in the absence of Rev. Mr. Watson. The remains were laid to rest in Oakdale cemetery, the following having acted as pall-bearers: Messrs. Joe Bowden, James F. Post, W. W. Hodges, E. G. Parmele, John Haar and G. H. Davis.

Jack Rabbit Chase.

The exhibition of coursing at Wrightsville Beach yesterday afternoon was witnessed by a very large crowd. Mr. Jake Solomon's greyhound was the favorite with the spectators. While the race was not a great success, from an amusement standpoint, it was all right. Another race will take place Monday afternoon at 4:30 o'clock. The exhibitions are free and the public is invited.

Mr. and Mrs. Sneeden Bereaved.

Friends of Mr. and Mrs. James W. Sneeden sincerely sympathize with them in the death of their little 2-year-old daughter, Louisa Queen, which occurred Friday evening shortly after 6 o'clock. The funeral was conducted at 4:30 o'clock yesterday afternoon from the family residence, No. 914 Princess street, by the Rev. Geo. B. Webster, and the remains were laid to rest in Bellevue.

THE CAMPAIGN.

It is now just 79 days till the 8th of November when the Presidential election will be held. It is natnral, therefore, for the campaign to be livening up, and it is gratifying to note that the chances for Judge Parker are constantly brightening.

Chairman Taggart, as well as Judge Parker, receives hundreds of letters daily from life long Republicans who declare against Roosevelt and will vote for Parker. The same can be said about Democrats who refused to vote for Bryan and supported McKinley.

Many of those who have become Parker adherents are men of national reputation. Denouncing what he terms the imperialistic policy of the President, William Morton Grinnell, a prominent Republican and a nephew of Levi P. Morton, declares that he will vote for Judge Parker. He occupies the same position as Gen. E. A. McAlpin, former treasurer of the Republican State Committee; William G. Choate, a brother of the present Ambassador to the Court of St. James; Albert B. Boardman and other Republicans who are opposed to Roosevelt.

Mr. Grinnell's grandfather was one of the members of the Electoral College who voted for the first Harrison. Mr. Grinnell served under Benjamin Harrison as Third Assistant Secretary of State. He is a practicing lawyer and a director of the Illinois Central Railroad.

"My decision," said Mr. Grinnell, "has been reached after much thought on the subject. The President may be all very well in his place, but I think that he would do better as a Viking in the ninth century than as the ruler of this country. His acts have gone beyond the bounds of law, and in many cases he fomented class and race hatred by his policies.

"Perhaps there is no objection to a President being a little autocratic, but he has overridden the Constitution and disregarded the law. His making of appointments during a constructive recess that is in reality no recess is a case in point. His signing of the rule which made every veteran of the civil war an invalid per se and entitled to a pension is another example. The motive of it was to gain votes, but it amounted to nothing less than an absolute decree. These men became invalids and entitled to a pension because he so commanded.

"His conduct with regard to the Panama canal is ridiculous. It is more absurd than illegal, for it amounted to an enunciation of doctrine of eminent domain applied to a foreign state. The whole affair was a violation of international law. As a result, those South American countries which formerly looked to us for help and protection have grown to hate the Monroe doctrine.

"Mr. Roosevelt is given to the incessant preaching of might against right, of the power which belongs to the strong, of the driving of the weaker to the wall. I consider that the ideas which he advocates are contrary to Christian ethics. What he advocates continually is atavism, the brutal doctrine of the survival of the fittest, the return to the Dark Ages."

"What the country now needs is an upholder of the law for President. The United States was always a law-abiding nation until three years ago. Judge Parker is a man of judicial temperament. Every patriotic American at heart prefers the reign of law and order as against impulse and adventure. Judge Parker will be an upholder of the law and Constitution. The country has law enough. What she needs is to have it respected."

Among others who have changed their political views is Theodore Cox, formerly president of the New York State League of Republican Clubs.

Says the Charleston *News and Courier*: "Speaking of the shipment of the first bale of the new cotton crop from Bamberg county to Charleston this year and its selling here at 15 cents a pound, the Manning *Times* remarks: 'Now if Charleston would have the rest of the South Carolina crop all that is necessary is to make her market equal to other cities. It is not right for our natural cotton market to allow Wilmington and Norfolk to pay more for cotton. If the business men of that city were as active in building up a market for the State's principal product as they are in looking after the Navy Yard, Charleston would soon be the people's market.'"

TOO LAX WITH DANGEROUS CRIMINALS.

On Wednesday two dangerous long term criminals escaped from the camp on the Wilkes county turnpike. One of them was John Flowers, of Wilson county, who was serving a life-term sentence for criminal assault on his own daughter. He was convicted and sentenced to be hanged but Gov. Aycock commuted his sentence to life imprisonment because it was shown that the man was either insane or of such a low order of intellect that there was a doubt as to his moral responsibility. The other convict was Henry Cochran of Rutherford county, who was serving a sentence of 15 years for manslaughter. They were both white men and broke away from the guard as they were being marched out to work. The guards fired five shots at them without effect.

The news of escaping convicts in this State is entirely too frequent, and the authorities ought to make a rigid investigation into the manner of escapes and as to the responsibility of those charged with the safe keeping of the convicts. Evidently there is carelessness somewhere.

Only a few weeks ago several dangerous convicts escaped from the railroad camp near Raleigh, among them men convicted of taking life and committing criminal assault. There are a certain class of criminals who are too great a peril to society to be farmed out where they can have even the least opportunity to escape and probably commit other heinous crimes. The most dangerous criminals should be kept within the walls of the penitentiary, and it is to be hoped the State's prison authorities will put a stop to the custom of leasing out or working out men whose escape is a peril to any community into which they flee.

On Wednesday night three negro convicts escaped from the railroad camp near Raleigh. Guard Leslie, after a hard sprinting match, overhauled and recaptured one of the fugitives. The two men who succeeded in getting away were Charles Taylor, a life convict, and Green McDonald, a 10-years term man. Here we see that two more dangerous criminals have escaped, and we are convinced that these frequent escapes of desperate criminals justifies the demand that their class should not be worked outside the penitentiary.

CURRENT COMMENT.

—— It is now claimed that the Igorrotes and some of the American Indians speak the same language. They also have a common appetite for fricasseed dog.—Washington Post.

—— Louisiana Republicans demand that the President choose between a white man and a negro for national committeeman. It is possible that a compromise on a saddle-colored gentlemen might be satisfactory.—Washington Post.

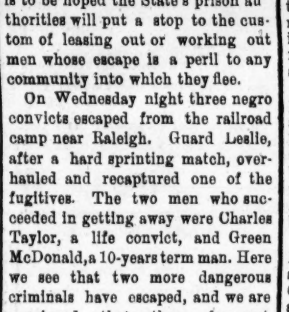
—— Col. Bryan says he proposes to place himself at the disposal of the Democratic campaign committee. The colonel is taking long chances, as some of the campaign managers have rather radical ideas as to the disposition that should be made of him.—Washington Post.

—— Japan starts in with the open door as soon as it has conquered the right to open it, and Niuchwang will now be free to everybody's ships and trade, with other ports to follow, as the Jap flag is hoisted over them one after another; a generous anti-monopoly signal, making a picture in the Oriental skies as handsome as anything of the kind ever set there, if not more so.—New York Tribune.

——This, then, is the issue: Shall the trusts be permitted to purchase another four years' lease of the Dingley tariff from the party in power? With this issue plainly before the country, it is not strange that organs of the party should evade it with the pretense that the money standard would be endangered by the election of Alton B. Parker, and that the trust contributions are for the sole purpose of saving it. But it would be strange if they should believe the tale with which they seek to beguile the public.—Philadelphia Record.

The Love of Eating.

IS THE AMERICAN BECOMING A GOURMAND?



In our largest centers of population, such as New York and Chicago, we daily see more attention given to the inner man. Cafes and lunch-rooms are filled with men and women who seem to give all their time and attention to thoughts of properly or improperly feeding their stomachs. "It is of course best to eat slowly, but not too much," says Dr Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. In this 20th century people devote so much time to head work that their brain is fagged and there isn't sufficient blood left to properly take care of the other organs of the body. The stomach must be assisted in its hard work—the liver started into action—by the use of a good stomach tonic, which should be entirely of vegetable ingredients and without alcohol. After years of experience in an active practice, Dr. Pierce discovered a remedy that suited these conditions in a blood-maker and tissue-builder. He called it Dr. Pierce's Golden Medical Discovery—an alterative extract that assists in the digestion and assimilation of the food in the stomach—so that the blood gets what it needs for food and oxidation, the liver is at the same time started into activity and there is perfect elimination of waste matter. When the blood is pure and rich, all the organs work without effort, and the body is like a perfect machine.

FREE! Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

SPIRITS TURPENTINE.

— Raleigh Post: We expose no confidence in saying that Governor Aycock will never give his assent to a lease proposition that will have the effect of bottling up the Atlantic and North Carolina Railroad.

— A few days ago the Bull tobacco factory shipped from Durham to Seattle, Wash., a solid car-load of manufactured goods. The shipment was made by way of the Norfolk & Western and the freight bill was $832.65.

— Charlotte Observer: The strike disorders and narrow escapes from lynchings in New York, Chicago and other cities should serve to direct attention to the fact that it is often impossible to prevent acts of violence in sparsely settled communities.

Raleigh Post: The organized liquor dealers are refreshingly frank in taking the public into their confidence in regard to their intention to go into politics, and as to the manner of campaign which they intend to prosecute, but they are not overwise in tactics that bring success to a cause.

—The capital stock of the new Dallas bank has been increased from $15,000 to $20,000. The stockholders will at once begin the erection of a modern two-story brick bank building. Mr. Miles A. Carpenter has been chosen cashier, and Mr. L. L. Jenkins, of Gastonia, has been chosen president.

— Barron, aged 15 years, son of Mr. Tom Kerr, of Rowan county, sustained injuries on the head when 6 years old by falling from a horse, and for some time past has been under special treatment for a depression of the brain. Last Friday, however, the young boy became fretful and from that stage he developed into a strong case of dementation. The boy will be taken to the Hospital at Morganton.

— Lumberton Robesonian: It is rumored that the Seaboard Air Line is about to come under the same management which controls the Coast Line and the Southern Railway systems. This, if true, means a monopoly of the railroads of the South by one management. The injuries which result from the cutting off of competition are manifest and it is to be hoped that the rumor is unfounded.

— Chairman F. M. Simmons is now busy arranging the preliminaries of the Democratic campaign and the State headquarters present a busy scene. Chairman Simmons has made the following appointments for Hon. Francis D. Winston, Democratic candidate for lieutenant governor: Greensboro, August 31st, at night; Lexington, September 1st, at night; Concord, September 2nd, at night; Albemarle, September 3rd, at 1:30 o'clock; Salisbury, September 5th, at night; Taylorsville, September 6th, at 1:30 o'clock; Statesville, September 7th, at night.

— Lumberton Robesonin: It is not generally known, yet it is a fact that on the statute books of North Carolina there is a law which makes drunkenness in public places punishment by confinement in jail for two years. It is an old law which has escaped notice because of the infrequency of its enforcement. The jag artist who kept himself within reasonable bounds has done so in awe of no greater authority than that of the police in incorporated towns and cities. A few instances in which the law was enforced would doubtless contribute considerably to the sobriety of some who are given to over indulgence of this kind. They would prefer remaining sober to running the risk of incarceration or of being worked on the public road.

— Charlotte Chronicle: The very important part which North Carolina takes in the production of mica is set forth in the report of the twelfth census. It shows that the forty-nine mines reported in operation during 1902 were located in the following States: North Carolina, 28; California, 10; South Dakota, 3; Maine, 2; New Hampshire, 2; Virginia, 2; Georgia 1, and New Mexico 1. Of the thirty-eight operators, twenty-six were in North Carolina, three in South Dakota, two each in Maine, New Hampshire and Virginia, and one each in California, Georgia and New Mexico. North Carolina was the main producer of mica in the United States. In 1902 the value of the production was 59.8 per cent. of the total.

KILLED HIS MOTHER.

Rev. C. J. Budlong Writes of His Narrow Escape From Deadly Diabetes, From Which Disease His Mother Died.

STUART'S GIN AND BUCHU CURED HIM.

There is no disease so surely fatal as diabetes, or any other form of Kidney disease. These organs have important work to do, their main function being to remove all impurities from the system. When they become deranged, or fail to act promptly, this poisonous matter stagnates and remains in the system with serious results.

The most reliable remedy for all forms of Kidney and Bladder diseases is Stuart's Gin and Buchu, which never fails to give satisfactory results, even in advanced stages of the disease. The following letter from the Rev. C. J. Budlong, a prominent minister of Washington, Rhode Island, is one of the many voluntary testimonials from those who have been cured by this remedy.

REV. J. C. BUDLONG.

"I have been cured of a most severe form of Diabetes by the use of your celebrated Stuart's Gin and Buchu. I regard it as the greatest remedy ever known for the terrible disease. My mother recently died from its ravages, and I feel that I was saved from a similar fate by using your remedy. God bless you for compounding it. Yours truly,

"REV. J. C. BUDLONG,
"Washington, R. I."

Samples Free to All.

If you have any indication of a derangement of the bladder or kidneys, no matter how slight, you owe it to yourself to take immediate steps to cure yourself before a dangerous stage is reached. A thorough test of thirty years has proved Stuart's Gin and Buchu to be a thoroughly reliable remedy for any form of diabetes, gravel or stone in the bladder, inflammation, uremic poison, or any other stage of kidney or bladder disease. It promptly reaches the cause of trouble and dissolves and expels from the system the deadly uric acid, at the same time restoring the kidneys and bladder to their normal healthy condition, and building up and adding strength to the entire system.

We invite everyone to test Stuart's Gin and Buchu without cost, and will take pleasure in sending a sample of the remedy, with complete information to all who will send their name and address to Stuart Drug Co., 68 Wall street, Atlanta, Ga.

NEW YORK, Aug. 20.—The cotton market opened firm at an advance of seven to nine points in response to bullish Liverpool cables of both a private and official character. Shorts covered actively at first, being rendered uneasy by the prospect for showers over Sunday as well as by the firmness abroad, and prices after the opening were advanced another few points on the active months. But scattering longs took profits at the higher level and with the South still selling moderately the additional gains were soon lost, after which the market ruled quiet and irregular with business of the usual end-week character. Houston estimates for Monday range from 2,600 to 2,900 bales against seventeen last year.

Where the Finger Pointed

[Original.]

Sir Hugh Verne sat in the home of his forefathers looking about him hopelessly. On the morrow the place was to be sold to pay debts that had been accumulating for a century. The present owner was to become of age on the very day of the sale. To add to his distress he loved a younger daughter of Lord Montague, a neighboring landowner.

Verne was sitting in a room that had been occupied ever since the house was built three centuries before for a library. The shelves were filled with books made when the printing press was a novelty. On one side of a large bay window stood a revolving geographical globe; opposite it a statue of a Sir Hugh Verne who had been dead 150 years. He had been miserly, and under his regime the estate had increased in value, but at his death the funds he was supposed to have accumulated did not appear. He had during his later days erected the statue of himself in his library, directing that no other monument to his memory be placed. The forefinger of the right hand of the statue pointed directly to the globe. One of his descendants, thinking that the finger indicated a place where some of his missing wealth was hidden, had had the globe taken apart; but, finding nothing of value, it had been restored. The present Sir Hugh's father, Sir Thomas Verne, had opened the wall back of the globe at a point in line with the finger, but he, too, had been disappointed. He had found the estate impoverished by his predecessor and had brooded over the misfortune he saw surely coming for his son. From the son's boyhood he had heard his father debating as to the meaning of the pointing finger and believed he had some reason for surmising that it referred to hidden money.

Sir Hugh sat gloomily looking at the statue, thinking of the family tradition. It was an hour before noon, and the day was the 21st of September. Neither the hour nor the date made any impression on the young baron, except that the date was present in his mind as the day previous to the sale. Nevertheless an idea occurred to him, an idea which came down through thousands of years. He had read that when the great pyramid of Cheops was built to entomb a king an inclined passage was left, through which a star at the vernal equinox would shine in upon the mummy. Sir Hugh noticed that the sun was shining in through the bay window upon the statue. The shadow of the index finger lay upon the wall midway between the ceiling and the floor. The young man noticed the shadow and kept his eye upon it as it slowly sank toward the floor, moving at the same time toward the east. Why the pyramid of Cheops entered his head and why he made a mental connection between it and the shadow he could not tell. He afterward tried to trace the steps leading him to his idea, but failed. Nevertheless it came to him that if it was not now the vernal it was the autumnal equinox. Then, suddenly, the bell on the town clock struck the hour of noon.

His idea had been born.

Rising, he seized an antique dagger hanging from a mantel and hacked a cross upon the point covered by the shadow of the index finger.

That afternoon he darkened the room, locked the doors, and, with a set of mason's tools, began to make a hole in the wall where he had carved the cross. The plaster was soon scraped away, and behind it was a stone differing from its neighbors in its shape, which was an octagon. On the stone from each of the right angles had been cut cross lines, and their intersection lay exactly at the spot where the shadow point had lain that day at noon. The stone was imbedded in an inch of mortar, which was easily chipped away and the stone removed, leaving an orifice into which the baron could hold a candle and see what lay beyond. What he did see was a vault heaped with gold sovereigns. On the back of the stone was cut in rude letters—doubtless by the man who had deposited it there—these words:

No fool shall inherit my savings. If any of my descendants has the wit to find this gold he will have the good sense to use it to the advantage of the estate.

Wondering how this vault could have remained so long unknown, the baron examined its surroundings and found that it had been a space left unused by the architect who had built the house.

That evening a mason was called in to enlarge the orifice, and by midnight the baron began to count his newly found treasure, separating the sovereigns into heaps of £1,000 each, making exactly fifty heaps, without a sovereign over or short. The next morning the sun was not high in the sky before his solicitors had paid off the incumbrances on the estate, and there was no sale. Indeed, instead of parting with the home of his ancestors, while his solicitors were paying off the debts Sir Hugh was superintending a corps of assistants he had called in to make hurried preparations for the celebration of his coming of age. The neighboring gentry were astonished at seeing messengers dash up to their places to leave invitations from Sir Hugh Verne for a grand ball in the evening.

No more brilliant assembly had occurred in the neighborhood in years—brilliant from the fact that the young baron was much beloved—and it was given out that his friends were invited to congratulate him not only on coming to age, but into an unexpected fortune. But where the fortune came from he told to but one person—the earl's daughter, who subsequently became his wife. F. A. MITCHEL.

The Harm Noise Does.

Noise is an undoubted factor in impairing the tone of the nerve centers. Whether we are conscious of it or not, it hurts the brain and has a deafening, dazing, bewildering effect on the mental processes. It tires the brain and tends to produce cerebral hyperæmia. To live in a noisy atmosphere is to shorten one's days. Irritability, neurasthenia, insomnia, are common effects. The tympanum or drum membrane of the ear is injured, the circulation of the cerebro spinal fluid is disturbed and the nerve cells themselves suffer as though subjected to mechanical violence.—London Family Doctor.

The New Hired Man.

"I can't see that man you've hired anywhere," said Mrs. Riggs irritably. "Here you are laid up with rheumatism, and I need some more wood split up for kindling. There! I see a man way over in the cranberry meadow. I believe that's him."

"Is the man standing or sitting?" asked Mr. Riggs.

"Standing," said his wife.

"Then the chances are it is some other man," said the invalid, "unless he's found a wasps' nest."

CONTRADICTORY TERMS.

Curious Pitfalls With Which the English Language Is Filled.

"Some curious and puzzling combinations of words can be made in English," remarked a man who is particular and choice in the language he employs. "Take up any schoolbook or magazine or newspaper and you can find these involved and complicated phrases. They are sometimes humorous, sometimes vexing. It all depends upon how they are used. The English language is filled with pitfalls, and the man who can even write pure Latin or Greek or Spanish or all three will often fall into them. The curious phrases I have heard—and some of them are common property—are too numerous to mention. For instance, the man who on winning a game of euchre after a long play exclaimed, 'First at last; always before I've been behind!' stated and described a fact in plain English words. A western humorist has observed that it is queer that 'day breaks, but never falls, and night falls, but never breaks.' We read of a political contest, 'One side or the other, by being hemmed in by certain conditions, is shut out, and by reason of the fact that they were thrown down by their friends they are broken up. And invariably if, in such matters, a leader is broken down it will be common report that he has thrown up the entire business, because, being shut in as he was, he was certain to be closed out in the final wind-up.

"Now, I don't know enough about any language—and as to English I am positive on this point—to say that these oddities of speech are bad or clumsy and increase the hardships of the writer or the man attempting to learn the language. But I would like to know of some linguist if in Latin or Spanish or Greek day ever breaks or night falls the same as it does in English or if a man is hemmed in and shut out at the same time. And why is it that a thrown down politician is broken up, while a broken down political policy is thrown up? And explain to me by what right do we say that a man in business was shut in by the tendency of the market and by that means was closed out by his creditors. And it is inevitable that if you down a man in business or politics he's gone up."—New Orleans Times-Democrat.

How Electricity Causes Death.

According to the electrical expert, currents at a pressure of about 12,000 volts or more killed by inhibition of the nerve centers and arrested respiration. The heart continues to beat with energy and is only arrested by asphyxia, causing great arterial pressure. In such cases the animal may in general be restored by artificial respiration. On the other hand, currents of low tension, not exceeding 120 volts and passing from the head to the feet, kill by producing paralysis of the heart, and the animal continues to breathe for some time after becoming unconscious. These low tension currents apparently stop the heart by causing irregular contractions, thus disturbing its rhythm.

Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A run down system or despondency invariably precede suicide, and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It being a great tonic and nervine will strengthen the nerves and build up the system. It's also a great Stomach, Liver and Kidney regulator. Only 50c. Satisfaction guaranteed by R. R. BELLAMY, druggist. †

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. The Morning Star

WILMINGTON, N. C.

SUNDAY MORNING, AUGUST 21.

CONTEMPT OF COURT CASE.

Directors of N. & S. Railroad and Other Corporations Charged With Disregarding a Restraining Order.

By Telegraph to the Morning Star.

NEW YORK, Aug. 20.—On application of counsel for Walter S. Johnston, a minority stockholder of the Norfolk and Southern Railroad Company, Supreme Court Justice McCall to-day signed an order directing Albert H. Flint, John T. Bacon, J. C. Haplin and others, directors of the railroad company, the Chesapeake Transit Company and the Colonial Trust Company of Pittsburg, to show cause in the supreme court on August 29th why they should not be punished for contempt of court in violating the order issued several months ago, restraining them from carrying into effect their plan for consolidating the Southern road, known as the "Little Nugget," with the Chesapeake Transit Company.

Mr. Johnston began a suit in June last to prevent the merger, on the ground that the consolidation was against the best interest of the road, and the restraining order was granted. Johnston and Henry Sampson, another director of the road, now allege that Albert H. Flint and others who control the transit company, have disregarded the court's order, and have gone ahead with the idea of carrying into execution the original plan of consolidation.

In an affidavit presented to the court, Henry Sampson swears that Flint and his conferees have gone ahead with their plans to dispose of the Southern road's property "for purposes connected with the scheme described in Mr. Johnston's complaint," that they are using $150,000 worth of treasury bonds to raise the money for the deal, and have torn up about five miles of the track between Cape Henry and Virginia Beach, purchased some years ago for the road for half a million dollars, and are now changing that line to a trolley system, to make it a part of the Chesapeake line. The affidavit alleges that this act has impaired the value of Norfolk and Southern earnings by cutting off Cape Henry as a terminus, and the loss, he avers, will fall on the shareholders who objected to the merger.

BAND OF COUNTERFEITERS.

Four Men Arrested in Atlanta Charged With Making Spurious Ten Dollar Bills of the Buffalo Pattern.

By Telegraph to the Morning Star.

ATLANTA, GA., Aug. 20.—As a result of nearly two months work by the secret service department, four men were arrested here last night and to-day charged with making and uttering counterfeit ten dollar bills of the "Buffalo" pattern. The plates from which the bills were printed were surrendered and about $30,000 of the bills were recovered

The men under arrest are Oscar L. McMichael, pressman in the local establishment of the LaHatte Printing Company; Clarence W. Rebb, a printer employed by the same firm; J. T. Little, an artisan who lives near this city, and P. S. Coffey, formerly postmaster at Need, a small town in Upson county, where he was arrested late to-day. There is still one man to be arrested, and it is believed that he lives in St. Louis.

The spurious bills were printed at night in the LaHatte establishment, although the proprietor knew nothing of it until he was informed by the officers. He gave material assistance in apprehending the men. Rebb was arrested and taken to the office of United States Inspector James N. Wright late yesterday. He there confessed his guilt, and his information led to the arrest of the others. From them it was learned where the money that had not been passed had been hid, and officers recovered $14,000 in a cigar box in the LaHatte printing shop, $12,000 at Little's house, about $4,000 in an alley in the centre of the city, besides smaller sums that were found on the men themselves. The bills, it is reported, are fairly good, sufficiently so to have been accepted by a number of business houses, including one bank in this city. All the men were brought here to-day and admitted their guilt. The inspector in a statement this afternoon said that Little and Coffey met an engraver, who is believed to have lived here, but who now has moved to St. Louis. From him they bought the plates for $500 each, paying one-half. Four plates were used, one for the front of the bill, one for the back, one for printing the numbers, and the fourth for printing the seal.

The capture is regarded as one of the most important of the kind for many years in this department of the service.

RIOT IN THE STOCK YARDS AT CHICAGO.

One Man Was Shot and Instantly Killed and Three Men Injured by Bullets.

POLICEMEN STOPPED ROW.

Shots Fired from a Train Filled With Non-Union Men, Who Were Hooted and Jeered At by the Strikers and Sympathisers.

By Telegraph to the Morning Star.

CHICAGO, Aug. 20.—During a riot in the stock yards to-night one man was shot and instantly killed and three other men were injured by bullets. The dead and wounded are: Andrew Nebroutski, shot in the center of the forehead, died immediately; Harry Hanson, slightly wounded in abdomen; Dennis Ryan, shot in right side and condition serious; Daniel Omara, shot in left leg, not serious.

A crowd of men and women strike sympathizers had gathered at Fortieth street and Emerald avenue, where, according to the rules of the railroad company, it is necessary for all trains leaving the stock yards to stop. A long train filled with Greeks and negroes from the yards stopped according to the rule, and when the strike sympathisers commenced to hoot and jeer the non-union men and press closer to the sides of the cars, the men inside opened fire. Nebroutski was killed at almost the first shot. Hanson, who was standing close by him, was wounded a second later, and Ryan and Omara were hit as the crowd ran away from the cars.

A riot call was turned in and forty policemen headed by Inspector Hunt, Capt. Clancy and Lieutenant Downey hurried to the spot. The police ordered that every door and window of the train be closed and a party of a dozen men headed by Lieutenant Downey passed through each coach in search of weapons, while the remaining force beat back the great crowd which had gathered.

It was learned by the lieutenant that the shot which had killed Nebrouski had been fired from the third coach near the center of the car. As the policemen entered the car they found the occupants in a panic and nearly every man had some kind of a weapon concealed about him. A man giving the name of Oley Everett was arrested on the charge of having done the shooting. A revolver with the barrel still warm and containing three empty shells was found upon him. Abert Johnson and John Galkia were also taken into custody.

GREAT FLOOD IN ARIZONA.

Seven Lives Known to Have Been Lost. Others Reported Drowned—Property Loss Half a Million Dollars.

By Telegraph to the Morning Star.

EL PASO, TEXAS, Aug. 20.—It was known to-day that seven lives at least were lost in the flood that swept through the town of Globe, Arizona, and surrounding country. The known dead are: M. N. Mitchell, Southern Pacific railway machinist, and his wife; O. D. Wilson, clerk; Charles Sims, John Epley, Mrs. Hurd and Miss Moody.

According to the report of the courier who brought news of the disaster to Bowie, others were drowned besides those named in the foregoing list, but their names are not yet known. The Gila Valley, Globe and Northern railroad tracks were washed out for three-quarters of a mile. O. D. Wilson and Stanley Meentzer by heroic work saved many lives. Wilson saved a young woman whom he was to marry and is reported to have then lost his life in trying to save another.

The property loss will probably reach half a million dollars. Large forces of men are reconstructing the railroad and telegraph line.

A NEGRO LYNCHED.

Murderer of Town Marshal at Cordova, Ala., Killed by a Mob.

By Telegraph to the Morning Star.

CORDOVA, ALA., Aug. 20.—Town Marshal J. McNelson was killed early this evening, and his slayer, a negro named Avoy, a short time thereafter was taken from the caboose by a mob and put to death by stones and pistol balls. McNelson had gone to the home of the negro to collect a fine owing to the town. He knocked and the negro, opening the door, fired upon the officer, killing him instantly. The wife of a citizen witnessed the crime, and procuring a pistol, held it on the negro until officers arrived. The negro's stay in jail was short, a mob having little difficulty in battering down the doors of the frail structure.

A brother of the negro made threats against members of the mob and he is now being pursued. He also may be lynched.

Fearing that another lynching will occur when the brother of Avoy is captured, Governor Cunningham to-night wired Sheriff Jack Moore at Jasper to order out the military if he thought it necessary, or if he thought there was any further danger of violence.

AMERICAN COTTON COMPANY.

Owners of New Round Lap Bale Process for Baling—Propose to Raise $1,500,000 Additional Capital.

By Telegraph to the Morning Star.

NEW YORK, Aug. 20.—William Nelson Cromwell, counsel for the reorganization committee of the American Cotton Company, made to-day a statement which says in part:

"The American Cotton Company began operations in 1898, upon the introduction of the new round lap bale process for baling the staple product of the South; over $4,000,000 has been invested in the introduction of the round lap bale in the United States and in Europe, it being protected by patents, both at home and abroad. The company owns a large press foundry in Chicago and in nine Southern cities owns eighty-three different plants, and also leases out presses at 215 other points. Agencies for the sale of the product in the United States, France, England, Italy and Russia are established. Its business last year amounted to over $15,000,000.

"In establishing this large organization and accomplishing these results the working capital has been consumed; no mortgage lien, however, exists, upon any of the property. An additional working capital fund of $1,500,000 is considered by the management advisable for the effective and prosperous operation of business and to provide this fund adjustment of the capitalization of the company has become necessary. Accordingly, an organization committee, consisting of Cornelius N. Bliss, A. D. Juilliard, J. Edward Simons, E. C. Converse, Wm. C. Lovering and Maxwell Woodhull, has been formed.

"The principal feature of the affair is that the creditors and stockholders are to unite in the purchase of the new first mortgage bonds in the proportion of twenty per cent. upon the holdings of creditors, twenty per cent. upon the holdings of preferred stock and five per cent. upon the holdings of common stock, and that the creditors convert their holdings into seven per cent. preferred stock, having preference both as to dividends and upon liquidations, and being further secured by the provision that no mortgage or increase of preferred stock shall ever be made without the consent of 80 per cent. of such new preferred stock.

"Therefore, by the consummation of the plan the reorganized company will continue operation with ample working capital, a mortgage indebtedness of but $1,500,000 and with all present floating indebtedness discharged.

"The holders of a very large amount of indebtedness and stock of the company have already consented to the plan."

SEABOARD AIR LINE SYSTEM.

Gross Earnings for Fiscal Year Exceeded $13,300,000 — Atlanta - Birmingham Extension Nearly Completed.

By Telegraph to the Morning Star.

BALTIMORE, August 20.—John Skelton Williams, of Richmond, Va., chairman of the board of directors of the Seaboard Air Line, who was in this city to day, was interviewed concerning the physical and financial condition of the company. He said in part:

"The gross earnings of the Seaboard Air Line system for the twelve months ended July 30th, 1904, exceeded $13,300,000. The surplus earnings after the payment of operating expenses, taxes and fixed charges, including interest on car trusts and rentals, amounted to $500,000.

"From this balance, however, is to be deducted other interest and commissions paid during the year to syndicates and to syndicate managers which are not properly chargable under the head of regular fixed charges.

"Track laying from Atlanta to the junction with the old East and West railroad division at Rockmart, Ga., was completed day before yesterday, thus marking the practical completion of the line from Atlanta to Pell City, Ala., within about thirty miles of Birmingham. The entire line through to Birmingham is to be finished before November 15, 1904."

NEW YORK, Aug. 20.—Thomas F. Ryan states to the Associated Press that he has this evening purchased for himself and his associates, Blair & Company, and T. Jefferson Coolidge, Jr., the Seaboard Air Line stock which was held by Messrs. Williams and Middendorf, amounting to 140,000 shares and that these gentlemen will resign from the board of directors.

Mr. Ryan was asked what effect his purchase would have on the Hamilton-O'Brien committee which is calling for the deposit of Seaboard stock. The answer was: "I don't know."

While Mr. Ryan declined to make any further statements regarding the transaction, it is understood that Messrs. Ryan, Blair and Coolidge now own about $25,000,000 of Seaboard stock, and that their friends, including C. Sidney Shephard, own $15,000,000, making about $42,000,000 out of a total capital stock of $62,000,000.

A MISSISSIPPI FEUD.

W. S. Windham Shot from Ambush and Killed Near Bay Springs.

By Telegraph to the Morning Star.

LAUREL, MISS., Aug. 20.—Last evening, while W. C. Windham, E. Windham and J. T. Blakely were going through Tallahalla swamp about two miles from Bay Springs, Miss., they were fired upon from ambush and W. C. Windham was shot in the breast with a Winchester rifle bullet. He fell from his horse dead. The shooting is believed to be a result of the Ainsworth-Windham feud in Smith county, Sloan Ainsworth having been recently killed by one of the Windhams. Further trouble is expected, as both factions are heavily armed. There is no clue to the assassin.

WARM WIRELETS.

President Roosevelt left Washington yesterday for Oyster Bay. The President will remain at Oyster Bay for one month.

The Synodical Lutheran Conference of North America at Winona, Mich., has voted the appropriation of $15,000 to buy a tract of land near Concord, N. C., where a college for the education of negroes for the ministry will be erected.

Five buildings entailing a loss of about $40,000 were destroyed by fire yesterday at Lynchburg, Va. The buildings burned were the factory of the Lynchburg Box Company; a large warehouse, occupied by the Kyle Tobacco Company; two retail grocery stores and a frame residence.

It has been found that the new dry dock at the Norfolk navy yard is barely large enough to accommodate the largest cruisers now under construction for the government and the naval constructor and engineer on duty at that yard have recommended that the dock be made fifty feet longer.

JAPAN MAKING A SUPREME EFFORT.

Battle at Port Arthur Along the Entire Line Began Saturday at Daybreak.

AGAINST FORTRESS ITSELF.

Disabled Russian Warships at Shanghai Ordered to Leave or Disarm—Movements of Hostile Land Forces. The Vladivostok Fleet.

By Cable to the Morning Star

CHE FOO, Aug. 20, 4 P. M.—M. H. Ijuin, the Japanese consul general at Tien Tsin, who arrived here to-day on the British steamer Pechili, and who had a conversation lasting forty minutes with the commander of a Japanese torpedo boat destroyer which overhauled the steamer off Liaoti promontory last night, says that to-day's battle, which began at daybreak, is directed against the fortress itself. It is taking place along the whole line, and it is Japan's supreme effort, to which the recent battles were but preliminary contests. He adds:

"I firmly believe that you can safely say that Port Arthur will soon be in our hands. One after the other of the outer defences has been taken by the Japanese and when the latter had completed their preparations for the grand assault General Stoessel was asked to surrender. He refused. Now comes the final test."

TSINGTAU, Aug. 20.—The Japanese protected cruiser Yaeyama to-day landed here Major Hoffman, the German military attache who was at Port Arthur. The major left the fort in a junk, at the German Emperor's order. The Japanese cruiser picked him up thirty miles out and, it is reported, confiscated his papers. Major Hoffman's personal baggage was left on the junk.

The correspondent of the Associated Press here was received on board the Yaeyama by Captain Dishiyama. The latter, however, was not disposed to talk of the war, beyond saying that the Japanese have been successful in the recent fights off Port Arthur. He further declared that the Japanese expected to have the Russian warships now at Port Arthur in their hands in a few days. The Yaeyama left this port at 6:30 P. M.

Russian Reserves Called.

ST. PETERSBURG, Aug. 20.—The Emperor has issued a ukase summoning to the colors all the reserve officers throughout the empire. The Official Messenger to-day announced the mobilization of the reserves in forty-five districts, calling to the colors about one-tenth the reserves of European Russia. Considerably over one-half of the first-class reserves of European Russia have now been called out, and practically all the reserves in Siberia.

Ordered to Leave Shanghai.

SHANGHAI, Aug. 20.—The Russian torpedo boat destroyer Grozovoi has been ordered to stop repairing and either to leave this harbor at once or disarm. The Russian cruiser Askold must leave here Monday at noon. These orders were issued by the Taotai of Shanghai. It is believed in official circles that both warships will disarm.

Russians Retreating?

TOKIO, Aug. 20.—The Japanese troops occupied Anshanshan yesterday and the Russians have retreated toward Mukden.

Russian Cruisers.

MUKDEN, Aug. 20.—The Russian cruiser Novik has entered the harbor of Korsakoviak, island of Sakhalin, and the Russian cruiser Diana, recently sighted off Hong Kong, has arrived at Saigon, capital of French Indo China.

ST. PETERSBURG, Aug. 20.—The admiralty was considerably relieved by the receipt of the news of the arrival of the cruiser Diana at Saigon, and of the Novik at Korsakovisk. The Novik is expected to continue her voyage to Valvidovostok as soon as she has coaled. She probably will put into Karsakovsk in order to ascertain the whereabouts of the Japanese squadron.

Attack Unsuccessful.

CHE FOO, Aug. 21, 9 A. M.—A reliable authority declares that yesterday's (Saturday) attack on Port Arthur was unsuccessful, but continued last night and to-day and will go on for one more day if the Japanese are still repulsed. A siege is expected.

A Three Days' Assault.

CHE FOO, Aug. 21, noon.—It is reported that the Japanese before Port Arthur have captured Fort No. 26, one mile north of Golden Hill. The Japanese are now attempting to storm Liaoti promontory.

Their right wing terminates at Pigeon Bay. The Russian garrison at Port Arthur is estimated at 23,000 men, covering an area of twelve miles.

A junk arriving at Tengchow from the Miao Tao Islands reports seeing yesterday five Japanese men of war pursuing two Russian warships, type unknown. They were going in an easterly direction.

It is understood that the Japanese plans at Port Arthur contemplate a three days' assault. They expect to triumph on the third day. It is stated they have a sufficient force to maintain an assaulting force of 60,000 men throughout.

Four thousand Japanese are reported to have landed at Dalny yesterday. It is alleged that the check of Saturday does not jeopardize the progress of the assault as planned.

TOWN MARSHAL KILLED

By a Negro Ex-Convict—The Negro Also Shot and Killed by Other Officers.

By Telegraph to the Morning Star.

LITTLE ROCK, ARK., Aug. 20.—A special from Forest City, Ark., says: City Marshal W. W. Rainbolt was shot and killed to-day by John Williams, a desperate negro ex-convict, whom he was endeavoring to arrest. Before this Williams shot and probably fatally wounded William Murphree, a deputy sheriff.

Deputy Sheriff Murphree was attempting to arrest the negro when he was shot down by Williams who had concealed himself behind a fence. City Marshal Rainbolt and other officers went in pursuit of Williams and during this pursuit Rainbolt was killed by a shot through the abdomen. He shot the negro down after he had received his death wound. The negro's body was riddled with bullets by the other officers.

A TERRIFIC TORNADO SWEEPS MINNESOTA.

Several Persons Killed, Many Injured and Property Damage to the Extent of Two Million in St. Paul.

By Telegraph to the Morning Star.

ST. PAUL, MINN., Aug. 20.—Five persons are reported to be dead, two score injured and property damaged to the extent of two million dollars by a fierce tornado which swooped down on the city shortly after 9 P. M.

The Tivoli theatre was demolished; the Empire theatre razed; the High bridge, an immense structure crossing the Mississippi at a height of 200 feet, was almost totally destroyed, and 200 buildings are more or less damaged.

A report at midnight is that the House of the Good Shepherd, a Catholic institution, was wrecked and twenty-five persons injured there.

All communication with the outlying districts is cut off and it is impossible to say whether or not the damage has been as great as was done in the city itself.

The property damage at Minneapolis is said to have been nearly as great as in St. Paul.

The storm was of short duration, lasting not more than fifteen minutes but the devastation it wrought was terrific. Buildings were unroofed and fronts blown in, the interiors being flooded by rain which came in great waves along with the wind. Electric wires were prostrated and many persons injured by contact with the current from electric light and trolley wires. An excursion steamer, towing a barge on the river below St. Paul is reported to have been wrecked. Relief parties in steam launches have been dispatched to the rescue. It is said that many lives were lost there.

PRESIDENT ROOSEVELT.

His Trip to to Oyster Bay—An Unpleasant Incident in New York City—Detained by a Flood at Trenton, N. J.

By Telegraph to the Morning Star.

OYSTER BAY, Aug. 20.—In a blaze of red fire the special train bearing President Roosevelt and party drew into the Oyster Bay station to-night at 9:12 o'clock.

An unpleasant incident occurred in New York when the presidential party reached the corner of Sixth avenue and 24th street. A big athletic man sprang into the street in advance of the crowd and dodging the mounted police which surrounded the President's carriage, tried to reach the carriage. Secret Service Officer Taylor, one of the President's personal guards, sprang from a cab in which he was following the carriage of the President and seized the man before he could reach the carriage step. Taylor forced him back to the sidewalk, warning him not to attempt again to reach the President in so unceremonious a manner. What the man's object was nobody knows. Some one suggested that he was "just a bit too enthusiastic."

President Roosevelt was delayed nearly four hours to-day by a re-arrangement of his special train schedule made necessary by a flood at Trenton, N. J.

CRIPPLE CREEK EXCITED.

Number of Objectionable People Arrested by 2,000 Citizens, Forcibly Deported and Warned Not to Return.

By Telegraph to the Morning Star.

CRIPPLE CREEK, COLO., Aug. 20.—Two thousand citizens of this city this afternoon arrested S. J. Nangs, Attorney Eugene Engley, Attorney A. C. Cole, together with Mr. Hall, manager of the Union store, and some fifteen others. The crowd was divided into three squads, one taking their prisoners to Barnard Creek, about three miles from here, where they were told to leave the district and not return, the other two squads taking their prisoners toward Canon City, where they were treated in a like manner.

The greatest excitement prevailed in the district, and citizens declare that none of the deportees will be allowed to return.

Fifteen of the men were deported by miners who had come off shift at 4:30 o'clock. The men had met on Bennett avenue. By a preconcerted move and without saying a word, they marched in a body to the Inter-Mountain Mercantile Company's store, the successor of the Western Federation of Miners Cooperative store. Every employe in it was taken in charge. The officers were helpless before the hundreds of miners.

Squads were then sent through the city, picking up others who are alleged to have been keeping up agitation or to have been acting as secret agents of the Federation. A concerted move was made upon the sheriff's office and every officer who appeared on the scene was overpowered and disarmed.

Josephus Daniels, member of the Democratic national committee for North Carolina, was in New York yesterday to consult Chairman Taggart regarding the campaign in the Southern States. The Democratic national committee has arranged for sending speakers into Maine and Vermont.

Senator Hoar's condition at the time of giving out the last bulletin for the night, was reported unchanged. The statement was made that life might endure for three or four days, although there is no possible hope of recovery.

— "Yes," said Mr. Stormington Barns, "we did well in the west. At a one-night stand in Arizona we played to a $10,000 house." "Say, what are you giving me?" queried Mr. Walker Ties. "Facts," answered the great footsore tragedian. "The one man who comprised the audience was said to be worth fully that amount."—Chicago News.
